- Founded 1911
Green LMU

LMU was back-to-back champions —2018 and 2019 — in the Recyclemania competition among 350 universities.

LMU has reduced its water consumption by nearly 2 million gallons per year (estimated).

- removed 210,000 square feet of turf on Drollinger Field, which saved an additional estimated 1 million gallons of water
- replaced aging washing machines with Energy Star Units that save an estimated 880 thousand gallons a year
- installed low-flow aerators on sinks and low-flow shower heads across campus to reduce sink and shower water consumption by 55%

100% of campus sprinklers respond automatically to local weather conditions.

About three-quarters of the campus’ reclaimed water is used for irrigation.

Started recycling in 1990; first campus-wide collegiate recycling program in California, 1993.

One of the first campuses in the state to recycle 100% of green waste.

LMU has five LEED Certified (Leadership in Energy and Environmental Design) buildings. The Life Sciences Building received LEED Gold certification in November 2015 and the William H. Hannon Library received LEED Gold certification in 2011.
